

4-DAY TRAINING: CERTIFIED WIRELESS NETWORK ADMINISTRATOR

The CWNA certification is a foundational level wireless LAN certification for the CWNP Program. The training aims at the more experienced networking professional who is interested in expanding his current knowledge and skill of traditional (wired) networks with a wide-span knowledge of wireless network technologies.

WHAT CAN YOU LEARN IN THIS TRAINING?

After this training, you are fully prepared to take the CWNA-107 exam and you have developed the skill to design, install and manage Enterprise-level Wi-Fi networks.

Audience

- Administrators/ network controllers
- Support professionals: technical assistance and field support
- Developers: wireless software and hardware products
- Consultants and integrators: IT and security
- Decision makers: infrastructure managers, IT managers, security directors, chief security officers, and chief technology officers

Prerequisites

Basic knowledge of hardware and network technology is required to sign up for the Certified Wireless Networking Administrator (CWNA) training. Certificates of Certified Wireless Specialist or Certified Wireless Technician are not required to follow this course, but are highly recommended as they offer a solid base knowledge and allow for easier processing of the CWNA content and terminology.

Course Materials

The Course Guide that is used in this training is perfectly synchronized to the objectives of the certification exam. Upon participation, you will receive the CWNP Study Guide, which is a convenient preparation tool for the CWS-107 exam.

AGENDA overview

This course prepares you for the CWNA-107 exam. During the exam, you will be tested on your knowledge of wireless networks. The focus of this course is on vendor-neutral 802.11 wireless technology and IEEE standards, rather than vendor-specific solutions. Hence, the course instruments can be applied to specific solutions of any Wireless vendor.

SOLUTIONS

- **RF TECHNOLOGY**
- **NETWORK DESIGN**
- **NETWORK INSTALLATION**
- **NETWORK MANAGEMENT**
- **NETWORK ARCHITECTURE**
- **WIRELESS LAN SECURITY**
- **SITE SURVEY**

PRICING

	List Price
CWNP - Certified Wireless Network Administrator Training	
KD Training Center	€ 1995 p.p.
If external location	+ € 100

www.kappadata.eu/services/trainings

THE ART OF
IT INFRASTRUCTURE AND SECURITY **DISTRIBUTION**

Main areas covered by CWNA are:

- Radio Frequency (RF) Technologies
- Antenna Concepts
- Wireless LAN Hardware and Software
- Network Design, Installation, and Management
- Wireless Standards and Organizations
- 802.11 Network Architecture
- Wireless LAN Security
- Troubleshooting
- How to Perform Site Surveys

Certificate

The exam is available in English and holds 60 multiple-choice questions. You can take the exam at any Pearson VUE examination center. Your results will be communicated instantly upon completing the test. All information on application and most recent certification cost is available on www.vue.nl. The trainer will expound on the procedure during the training. After successfully completing the exam, you can now call yourself an official CWNP Certified Wireless Networking Administrator.

Note: *The certificate voucher is NOT included in the training.*

Practicalities

Lunch is included in the training.

Trainer

This training will be given by an external trainer of CWNP.

Evaluation

Evaluation is a continuous process by Kappa Data, so your feedback will be asked during the training. At the end of the training you will also receive a full survey where you can add your feedback.
