

# 1-DAY TRAINING: CERTIFIED WIRELESS SPECIALIST (CWS)

CWS prepares you for the CWS-100 certification exam and offers you a clear view on today's technology.

## WHAT CAN YOU LEARN IN THIS TRAINING?

CWS – Certified Wireless Specialist is a part of the CWNP course program and offers an entry-level wireless networking technology training. This training is designed to acquire basic knowledge and insights of WLAN technology.

### Audience

- Sales & Marketing collaborators
- First-line Support
- Decision makers
- Anyone willing to acquire basic knowledge of WLAN networking technology

### Prerequisites

There is no basic knowledge required to sign up for the Certified Wireless Specialist (CWS) training.

### Course Materials

The Course Guide that is used in this training is perfectly synchronized to the objectives of the certification exam. Upon participation, you will receive the CWNP Study Guide, which is a convenient preparation tool for the CWS-100 exam.

### AGENDA overview

The Certified Wireless Specialist (CWS) Training prepares you for the CWS-100 certification exam. In this training you will learn the foundations of radio technology and how wireless networks are installed and managed. You will learn the skills necessary to install, configure and troubleshoot the peripheral equipment. The focus of this course is on vendor-neutral 802.11 wireless technology and IEEE standards, rather than vendor-specific solutions. Hence, the course instruments can be applied to specific solutions of any Wireless vendor.

## SOLUTIONS

- **BASIC RF TECHNOLOGY**
- **BASIC WI-FI TECHNOLOGY**
- **WLAN HARDWARE AND SOFTWARE**

## PRICING
