

2-DAY TRAINING: Ruckus SMARTZONE 3.5

RASZA 200 - Ruckus Associate SmartZone Administrator

WHAT CAN YOU LEARN IN THIS TRAINING?

The RASZA 200 course is an entry level course for customers who use the Ruckus SmartZone Essentials and High Scale controller platforms to deploy Wireless LANs. This course focuses on SmartZone version 3.5.

Audience

Anyone tasked with installing, configuring, and administrating Ruckus SmartZone controllers and Access Points.

Prerequisites

- Each student should bring a laptop with functional WIFI.
- An introduction to ruckus Products is recommended but not required
- Knowledge of LAN/WLAN fundamentals

Course objectives

After completing this course, attendees should be able to:

- Give an overview of Ruckus SmartZone hardware and software
- Install and upgrade the SmartZone controller
- Explain the architecture of the SmartZone controller
- Configure Domains and Zones / Create and assign Administrator accounts and roles
- Successfully register Ruckus Access Points to the controller
- Perform advanced Access Point configuration
- Create Basic WLANs / Edit WLAN advanced settings
- Create WLAN Groups, schedules and VLAN Pools
- Manage WLAN devices / Authenticate WLAN users with AAA
- Deploy authentication portals / Authenticate guests using Guest Passes
- Manage clustering and fault tolerance

SOLUTIONS

- **INSTALLATION**
