

# 2-DAY TRAINING: Sophos XG Discovery Training

For those who are new to the **Sophos XG Firewall**, and are looking for a high-level technical training.

## MORE ABOUT THIS TRAINING

### Audience

This technical training is intended for resellers and end-users who want to increase their technical knowledge of the Sophos UTM / Firewall. This is not a certification training, but the content will help you speed-up the certification process to become Sophos XG Engineer.

### Prerequisites

Basic knowledge of TCP/IP and networking is recommended. This training requires the use of your own laptop.

### Objective

Learn how to operate Sophos XG Firewall with basic troubleshooting in network environments with low to medium complexity.

### Full agenda

- WebAdmin interface, dashboards, functions and shortcuts Synchronized Security (Heartbeat)
- Setting up a basic system configuration (licenses, up2date service, notification & logging)
- Network settings (Security Zones, DHCP, Routing)
- Network Security, NAT, Packet Filtering
- Introduction to Content Security
- Block content for users (URL, suspicious internet traffic, audit functions)
- Email Security

# SOPHOS

**Certification**

This is not a certification training, but will enable a fasttrack to new customers.

**Methodology**

This is a 2 days classroom based training of which approximately 5 hours will be spent on the practical exercises.

**Practicalities**

Lunch is included in the training.

**Trainer**

Tanguy Derriks, Certified Trainer

**Evaluation**

Evaluation is a continuous process by Kappa Data, so your feedback will be asked during the training. At the end of the training you will also receive a full survey where you can add your feedback.
