

RUCKUS One introductory promotion

Overview

RUCKUS One enables enterprises to easily manage a converged enterprise network, make better business decisions, and deliver exceptional user experiences. With flexible subscription and deployment models, RUCKUS One enables IT to deploy future-proof networks simply, reliably, securely and at scale.

With RUCKUS One, any IT team—no matter how “lean”—can easily provision, manage, optimize, and troubleshoot a high-performance multi-access enterprise network through a single web dashboard or a native mobile application. For the line-of-business stakeholders, RUCKUS One delivers business intelligence and enables them to define and track business-level KPIs.

Key benefits

- Unified converged network management via a single pane of glass
- Built-in AI/machine language-driven network assurance for unprecedented IT efficiency
- Flexible subscription model that matches your business needs
- Cloud scalability to meet your business growth
- RESTful APIs for network automation
